

Reference for Allan Ross MacKenzie

11th of March, 2013

To Whom It May Concern:

It is an honor for me to write this reference on behalf of Allan because I have known him going on for 19 months due to Allan being my English teacher. He is still my teacher. He is also my company teacher. Although Allan is a native Scot, he is as far as my company's and I are concerned a modern English teacher especially, that uses an attractive and interesting methodologies for his students, which don't expect the usual rigid lessons. Allan is able to increase the student's knowledge of English language to better understanding of the right use in the real everyday lives. Due to his skills it is possible to improve of a level language during the prospective time.

For these facts I can warmly recommend him as an English teacher for your company and your people who really want to learn.

Respectfully yours,

Adam Oberajtr, MBA
